PROFESSIONAL SUMMARY

Frontend React Developer with 3 years of experience specializing in JavaScript, React.js, and modern web development technologies. Skilled in building scalable, responsive, and high-performance user interfaces. Experienced in writing unit and automation tests to ensure code quality and reliability. Adept at collaborating in Agile environments to deliver user-focused solutions with a strong commitment to maintainability and performance.

WORK EXPERIENCE

Senior Systems Engineer   (April 2022 – Present)

Infosys | Hyderabad, Telangana.

- Developed responsive web applications using React.js, TypeScript, HTML5, CSS3, and JavaScript (ES6+).
- Ensured cross-device compatibility (mobile, tablet, desktop) and optimized performance.
- Managed application state using Redux, Context API.
- Integrated and consumed backend APIs using Axios and Fetch API.
- Collaborated using Git for version control and conducted code reviews.
- Implemented unit tests with Jest, achieving high code coverage for reliability.

PROJECTS

Microsoft China21V L2O Application

TechStack: ReactJS, Typescript, Redux, GraphQL,Node, FluentUI
Description:

- Developed key frontend features such as Upload Agreement and Review & Publish Sectionsusing React and GraphQL.
- Maintained unit test cases using Jest to ensure code quality and reliability.
- Worked on the code review and fix bugs in the application.
- Conducted accessibility compliance checks using Accessibility Insights and fix the same.

Microsoft Approval Management Application

TechStack: ReactJS, Typescript, Redux,Node, Harmony components
Description:

- Contributed to the Microsoft Approval Management Project by developing key UI features such as Rule Creation, Constants, Policy Sequence, and Test Cases sections using React.js and TypeScript.
- Developed automation test cases using Playwright for functional validation.
- Identified and resolved bugs in the application, enhancing performance and reliability.

Microsoft Quote center Application – Terms & Products section Documention

TechStack**:** ReactJS, Typescript, GraphQL,Node
Description**:**

- Collaborated on the migration of the Quote Center application from a monolithic structure to a micro-frontend architecture.
- Worked with cross-functional teams to create technical documentation for the Terms and Products fragments.
- Documented the backend services responsible for GraphQL (GQL) calls and outlined the component-level hierarchy to facilitate seamless integration and understanding.

SKILLS

- Frontend Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Typescript.
- State Management   : Redux, RTK.
- Backend technologies : Graph QL, Node and Express JS, MongoDB.
- Testing   : Jest, React testing library, Playwright automation testing.
- Other Skills   : Responsive Design, Debugging and Testing, Version Control(Git, Azure devops).
- Languages known   : English,Telugu,Hindi.

CERTIFICATES

React (Basic) certification By Hackerrank
- Credential ID: 5CAA3BE41570   Earned date: 29th Jul/2022

Introduction to Genarative AI by Google
- Earned date: Jan/2025

EDUCATION

B.Tech In Electronics And Communication Engineering   75%
- Sasi Institute of Technology and Engineering (JNTUK)   2016-2019
